NEW METHOD OF WASHING CLOTHES WITHOUT LABOR.

THE AUTOMATIC

CLOTHES WASHER AND BOILER.

THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any Stove or Range, in any boiler, and the low price of the article places it within the reach of every family.

This Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the clothes.

The hot suds and steam, by the action of heat, are driven up through tubes, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing all articles, from the finest laces to the bed-blanket. For Flannels it is invaluable, as it does not full them as in the old process of rubbing and pressing.

The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric, thoroughly loosening and eradicating the dirt WITHOUT LABOR or friction.—A thorough rinsing finishes the process.

Washing day will no longer be a terror and dread to housewives. The cost of the Boiler will soon be returned in the SAVING OF TIME AND LABOR, and the great saving in the wear of clothes.

The great value of this invention appears so clear, and appeals so directly to common sense, that we have deemed it unnecessary to accompany its introduction with numerous letters of approval, &c.

No invention has met with such ready sale and given such satisfaction. Call at LOUGEE & BROTHER'S, and see its wonderful operations.—We have the exclusive right to sell and manufacture in the state.

LIFE INSURANCE.

The Most Vigorous and the Most Liberal Insurance Company in the Country.

BROOKLYN LIFE
INSURANCE COMPANY,
141 Broadway, N. Y.

ASSETS OVER

$1,000,000!

CHRISTIAN W. BOUCK, ... President.
ABRAM D. POLHEMUS, ... Vice President.
WILLIAM M. COLE, ... Secretary.
D. P. FACKLER, ... Consulting Actuary.
DANIEL AYRES, M. D., LL. D., Med. Examiner.

POLICIES ISSUED AS GOOD AS UNITED STATES BONDS.

POLICIES VALUABLE IN LIFE AS AT DEATH!

The BROOKLYN LIFE is the only Company in the country which guaranties a definite surrender-value to every Policy on which two or more annual premiums have been paid; this amount, in dollars and cents, is endorsed on every Policy issued. Should any Policy-holder become unable to pay his premiums, he can thus know the cash worth of the Policy at any time after two annual premiums have been paid.

This certainly is the greatest inducement and most tangible advantage ever accorded to parties insuring their lives.

Among the advantages offered by the BROOKLYN, which thoroughly evince the determination of the officers to make it the MOST LIBERAL Life Insurance Company in the United States, are:

1st TOTAL REMOVAL OF ALL RESTRICTIONS ON TRAVEL AND RESIDENCE. The Assured may travel or reside anywhere they choose, the world over, without extra premium or special permit.

2d. A Loan of one-third of the Premium to the Policy-Holder Annually.

3d. All Policies are non-forfeitable after two full annual premiums have been paid.

4th. Rates as low as are consistent with financial soundness, and less than those of almost all Companies which accommodate their assured with loans.

5th. Dividends annually (after second year) in cash. Dividends are divided on the CONTRIBUTION PLAN—the only equitable manner of dividing the earnings of a Life Insurance Company. The Contribution Plan was first conceived by Mr. D. P. Fackler, now Actuary of this Company and has been adopted by most of the best managed Life Companies in this country.

The BROOKLYN LIFE has paid and now pays to its Policy-holders LARGER DIVIDENDS than ever before paid by a Life Insurance Company!

6th. Promptitude in paying losses.

7th. No charge for policy or stamp.

The success which the "BROOKLYN" has achieved, fully exemplified in its rapid and healthful growth, is a convincing proof of the confidence reposed by the public in its soundness, integrity and liberality.

LIFE INSURANCE.

ÆTNA
LIFE INSURANCE COMPANY,

Hon. E. A. BULKELEY, President,
AUSTIN DUNHAM, Vice "
T. O. ENDERS, Secretary.
H. W. St JOHN, Actuary.

SUMMARY OF BUSINESS FOR 1867

Total Assets, over	$10,000,000
Polices Insured in '67,	15,251
Am't insured, nearly	$45,000,000
Policies Average "	3,000
Receipts for 1867,	5,129,447
Surplus for Dividends,	2,000,000

Dividend Fifty per cent.

Receipts for Interest Nearly Paid Its Losses.

It has $130 Assets for every $100 Liabilities.

Its premium receipts at the present time are nearly HALF A MILLION DOLLARS per month and are rapidly increasing.

The growth of the Ætna has never been equaled by any other Company whatsoever, in Europe or America.

Particular attention is called to the fact that while its business is increasing unprecedentedly, its ratio of expenses is comparatively small.

ECONOMY of management, CARE in the selection of risks, *promptness* in the payment of death claims, and *security* in the investment of its immense Trust Funds, are rigidly adhered to, and have ever characterized this Company.

The ÆTNA issues all the favorite kinds of Policies at the most favorable rates.

The ÆTNA issued last year more Endowment Insurances than any other Company.

The ÆTNA'S ratio of expenses, or cost of new business is less than any other Company whatsoever, and less than *two-thirds* of the average.

The ÆTNA is as liberal in permits to travel, in all parts of the world, as a sound discretion will warrant, and is much more liberal than any other prominent Company.

ANNUAL INCOME over $8,000,000.

The only Company that has the Low Participating Non-forfeitable Term Insurance with privilege of renewal. Ex. of rate at age 30 $14 67, which is nearly 40 per cent. lower than any other leading Company. Also

Non-forfeiting cash rates with dividends on contribution plan and payable at the end of the first year.

Description of Policies.

First—Whole Life Policies.

Second—Endowment Policies, for terms of ten fifteen, twenty, twenty-five, thirty, and thirty-five years.

AGES.

Insurance will be granted at all ages from fifteen to sixty years.

PREMIUMS.

Premiums are payable annually during the continuance of the insurance, or annually during a period of five, ten, fifteen, or twenty years within the insurance term, or by single payment.

DIVIDENDS.

All Whole Life and Endowment Policies issued at the rates published herewith, will participate in the surplus from the date of issue.

The dividends will be declared and paid annually upon the contribution plan, and may be applied as the assured shall elect, either to reduce future premiums, or to increase the Cash Value of the Policy.

If no election be made the dividends will be added to the Cash Values.

When, by adding the dividends to the Cash Value, the accumulations on any Policy shall have become sufficient to keep the same in force for its *full amount*, without further payments, the assured may, at his option, either continue payment of premiums—and enlarge thereby the annual additions to its Cash Value—or discontinue them; and in either case, when the accumulations shall have become equal to the sum insured, the annual dividends on the Policy will be declared as a per centage of said sum, and paid in cash, and upon surrender of said Policy the sum insured thereby will be paid in full, without regard to the time fixed therein for its payment.

The system of applying the dividends is peculiarly advantageous to the assured, securing, at an increased age, not only relief from further payment of premiums, but, at the same time, an annual income until death, unless he shall have previously received full payment of the Policy.

Dividends on paid-up Policies—that is, Policies which require no further payment of premium to continue them in force for the original amount of insurance—will be paid in cash upon demand.

NON-FORFEITURE RULES.

No whole Life or Endowment Policy, on which two or more annual cash premiums have been paid, shall be forfeited by failure to make further payment as stipulated therein, but will continue in force for the full amount which the Cash Value and dividends, then accumulated, will purchase, taken as a single net premium, upon the "Actuaries" rate of mortality and four per cent. interest; and the amount continued in force will generally exceed the aggregate of the payments actually made, extra charges excepted.

SOUTHERN LIFE INSURANCE COMPANY.

PURELY A SOUTHERN INSTITUTION.

PRINCIPAL OFFICES:
Atlanta, Georgia; Memphis, Tennessee; Louisville, Kentucky.

CAPITAL STOCK, $228,500.

Nett Assets of the Company, July 1st, 1868, $330,942.06.

Insures lives, and promptly adjusts and pays losses. Its principal business is with Southern States, and to them it appeals for patronage. It has ample means to fully protect Policy holders and pay all losses.

The "Southern" combines the advantage of both note and cash system, stock and mutual—such as choose to pay cash may do so and secure a non-forfeitable policy and all the advantages of a Cash Company. The privilege of a permanent loan for one-third is granted to all who desire it.

It makes investments at home in good and reliable securities, thereby tending to make money more plenty in our midst, and to aid in developing the resources of our section, and to stop the annual drain of over six Million dollars, which are being sent North for Life Insurance.

Its profits are equitably distributed among Policy holders and Stockholders.

In its organization are presented men of experience in Life Insurance and their aim will be to make the "Southern Life" the exponent of the holdness, enterprise and progress of the present day.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

FRIDAY, JANUARY 29, 1869.

THE UNIVERSITY.

Among the many sad results of the war, and the efforts at "reconstruction" which followed in its train, none is more regretted and more painful and mortifying to the pride of every true North Carolinian, than the fatal blow which has been given to the University of the State.

It had not only been the *alma mater* of our own most distinguished and most useful men, but a very large proportion of those from the entire South and South West had been educated within its hallowed walls.—For a long period of years, every department of the government, State and National, Judicial, Legislative and Executive, —counted among their most shining lights, Judges, Governors, Statesmen, Foreign Ministers, men distinguished in Divinity, Law and Medicine, Science and Literature, who had been educated at Chapel Hill.

But alas! this glorious old ornament of the State is gone with but a wreck behind! And as if to add insult to all this injury, the noble body of Trustees, who, as the late lamented President Swain was wont to say, embraced a larger portion of the ability, character and influence in the State, than any equal number of men in her borders, and who labored for years and years with out fee or reward, except the consciousness of high duty performed for the public good, are constantly misrepresented and vilified as the authors of all this ruin, in the columns of the "official organ" of the State and of the United States, and of this City, by scribblers who are as ignorant and reckless of the truth as they are selfish and indifferent to the true honor and prosperity of the University or the people of the State.

And the able—devoted and self sacrificing members of the distinguished Faculty, whose fame once attracted such crowds of students to the University, cannot escape the spirit of detraction and falsehood.—Look at recent numbers of the *Standard*, when the late Trustees are charged with the destruction of the University. When every intelligent man in the State knows that its endowment was lost by the fate of war, and, especially, by the action of the Convention which repudiated the bonds of the State, and refused to discriminate between bonds really issued to aid in the prosecution of the war, and those purely for State and educational purposes—thus destroying nearly all the Common School and University funds, by indiscriminate ruin of the stocks in which they were invested. Besides, everybody knows, except such of the new comers from other States, as have been too busy, in schemes to make money out of our impoverished people, to seek or wish for information on other subjects, that, notwithstanding the greatest embarrassments and all the loss of revenue to the University, it was kept upon its feet, and even prospered with nearly a hundred students, under the persevering efforts of the Trustees and its able Faculty, till both were struck down by the hand of the "new civilization." The Professors remained at their posts to the last. They had temporarily resigned to enable the Trustees to accomplish certain reforms, which had been proposed, in the course of studies. But they were all reappointed and public announcement was made in due form, at the last commencement, that the exercises of the Institution would be continued, as usual, at the termination of the vacation, in July. Students were on their way, as usual, from all directions to enter College and to resume their studies at the appointed time, when, to the surprise and disappointment of all, the new "Board of Education," only a day before this time, and even before the new Trustees had assembled, issued an order that the exercises of the Institution were suspended, indefinitely, and removing all the Faculty then on duty, even the ever lamented President Swain, from all charge of the University and its important interests.

And yet, of these good men, it is asked in contemptuous interrogation, "where are our old Professors?" "They all resigned their places, &c." "Not one of them applied to the present Board of Trustees for any Chair in the University." "Could they justly expect to be restored to Chairs which they had resigned, and, in an institution which had *died in their hands?*" And such like questions and statements of folly, falsehood and ignorance. But we forbear. What better could be expected from puerile and ignorant writers who spread their wings thus—"*This project of our noble University was launched on the powerful tide of devout and benevolent emotion which burned in the soul of the lamented Caldwell.*"

Ministers of Grace, and shades of Shakespeare and Milton, defend us from this direful combustion of fire and water! launched on the burning tide of devout and benevolent emotion in the soul of the good and great old man! What would the venerable Caldwell have said in being called the "*Founder of the University!*" Where are the memories of Davie and his noble compeers! And then again, to assert in an editorial of the "official organ" of the State and of the United States and this City, that Professor Green (now Bishop of Mississippi) was neither a native of the State or a graduate of the University, &c., &c.

But enough. When party spirit enters into the government and system of education at the University, its doom is sealed.—Is there no Swain among us, no true lover and champion of the glorious memories and better days of the noble old University of North Carolina, to disabuse the public mind—appeal to the just pride of the State and place this most venerated of our institutions again on the high road to public favor—prosperity—usefulness and renown?

John Randolph and Jackanapes!

GENERAL LITTLEFIELD AND JUDGE ALDEN!

GALLOWAY AND WELKER—GALLOWAY THROWS HIM DOWN—BLACK TRIUMPH OVER WHITE PRIDE—A COLORED SINNER REBUKES THREE GODLY SENATORS—DEVILS, OWLS, JACKS AND NIGHT SESSIONS—RICH AND WYNNE—SINCE THE SURRENDER THE DEVIL ONLY A NEGRO—WHISKEY AT THE SHOPS—VISION OF EZEKIEL.

BLOW YOUR HORN, BILLY!

This day, forty two years ago, John Randolph, riding out in Washington City, and seeing the flag waving over the Hall of Representatives, said, "what fools men are to be there listening to jackanapes, and what fools the people are to submit to their rule."

What would old John have said, had he been a looker on in our Senate for the last day or two, and heard what there took place!

Galloway seems to be the Radical leader in the Senate. His race are very proud of him. He seems to be fast taking hold of the good feelings of all, by his liberal and manly course. We hear that he rebuked the three preachers, Welker, Blythe and Smith, who, of all Senators, showed less forgiveness towards Senator Robbins, by telling them to "practice what they preached," and "to forgive as they hoped to be forgiven." That "they preached the word of God, and for it, took money, as Lawyers did fees."

Mr. Welker, against retailing liquor at the Shops, said, "it would demoralize the rambling negroes and whites."

Galloway, conscious of the advantage the pious Senator had given him, rushed at his antagonist and threw him flat! He could tolerate the "word negro," from a Democrat, but it ill become the mouth of a Republican, and, especially, the Senator from Guilford. He was indebted to the negro and poor white man for his seat in the Senate, now they were ramblers and floaters, after having floated him into his seat.

An educated negro was heard to say, on the street, that Galloway displayed the noblest qualities of his eloquence, fierce sarcasm, indignant remonstrance, exalted sentiment and glowing elocution, which made the Guilford Senator quake in his boots and bite the dust. The Senator from Guilford disclaimed the use of the term "poor white," or any intention to reflect improperly upon white or black.

Henceforth the Guilford Senator will practice economy in the use of the term "negro." If he were not too vindictive in his feelings to learn from us, we could have given him the experience of one of our little children in the use of the term "negro."—Soon after the surrender, the little boy called a black man a negro. The old nurse told him "nobody was a negro but the devil and he must not use such appellations."—Senator Welker might have learned this from us—and saved himself the mortification of the public lesson he received on the floor of the Senate.

All about Senator Wynne, native, and Senator Rich, carpet bagger. Wynne was declaiming against night sessions, as the time and season for owls and their hooting. He said in the better days of the Republic when statesmen, like Gaston and others were members of the Legislature, there was no night sessions.

Under the new regime, we must have night sessions. They are for a purpose. He spoke at length against the present mode and manner of doing things. The Legislature had realized what Ezekiel saw in his vision, "wheels within wheels."

Senator Rich was not attentive to his brother's discourse, but was seen laughing, and, perhaps, talking too loud.

Senator Wynne told the story of the Methodist preacher, who was disturbed by the braying of an ass. This warmed up Senator Rich, who reminded Senator Wynne that only five decent men in Franklin would shake hands with him, and he was in his seat only by the new order of things against which he had been so loud in his condemnation. The carpet bag Senator was so offensive to the native gentleman, that the native declined further to multiply words, and said he would reply to Rich in another place, at another time. Show your pluck, native, and the *Sepoys* will all shake hands with you.

Milton Littlefield, Editor and Proprietor of the *Standard*, nor Judge Alden, of Governor Holden's reconstruction staff, have not come in.

We shall speak to Billy Smith to blow his horn, and see if "Jeff and Lyn" can't catch carpet baggers as well as deserters.

SMITHFIELD, JOHNSTON COUNTY, Jan. 27, 1869.

Mr. Editor:—Your paper, calling on Nathan Gully, for the name of Blow your horn Billy's dogs with which he ran his neighbors children when they deserted, has attracted great attention in the county where the loyal Billy once resided. I have collected a few facts and can give them to you as well as Nathan.

Jeff. Davis was the name of his favorite dog. Malinda or Linda was next. The names of the others we don't remember, but the loyal Billy had a pack. When Captain Ed. Sneed's Company was made up in Smithfield, Loyal Billy, or, as you call him, Blow your horn Billy, made a war speech. He hated all the North, as he now hates a decent Southern born man. Billy had a high time; he rode a fine bay horse, Sally. Dr. Jones made him a present of a huge pair of brass spurs, manufactured by Clawson, of Raleigh. How we all admired Major Smith, mounted on Sally.

What fine times we had in camp at Smithfield; no man was allowed to go in or out of town without a pass from the Major. Then we had a good time at Hannah's meeting house, but, still better at Dave Smith's millpond. You have fished in the pond; you remember the large island, the deserters took to that and would fire on us from the thick cane and brush as we would approach in our canoes. Jeff and Lyn would burn a little. Major would curse the damn cowardly deserters and then we would all go fishing.

The best chase Jeff and Lyn ever had, the longest and most exciting, was in running Radford Pearce. Jeff and Lyn, with all the pack, jumped him in Boonsboro' District, running him through Boonsboro' into Beulah District, through Beulah to Lowel Factory, thence to St. Charles', and from St. Charles' to Earpsboro', where we lost him.

I have written this to give you names.—Dr. Jones, Sam Hood and many others, can give you all the information about our loyal Billy. He treated us well, but after catching his neighbors' children with dogs to make them fight for his negroes, it is, hard, now, to punish them for treason.

Yours,
JOHNSON.

A message was received from the House transmitting the following bills, viz:

Mr. Graham said, this bill comes from the House as a substitute for the Senate bill, entirely a different bill from the original. He desired to know if it was not necessary, under the Constitution, that it should be read three several times in the Senate.

The President decided that it was not necessary. The substitute contained the substance of the original bill which passed the Senate, and came from the House in the form of an amendment.

Barrow, Beasley, Beeman, Burns, Blythe, Colgrove, Cook, Davis, Eaves, Etheridge, Eppes, colored, Hayes, Harrington, Hyman, colored, Jones, of Wake, Lassiter, Lindsay, Love, Martindale, Moore, of Yancey, Osborne, Rich, Richardson, Respass, Smith, Stephens, Welker, Wynne, Winstead, and Wilson—32.

Bill relating to the Western Turnpike Road. Passed.

Bill to amend an act to regulate the sale of spirituous liquors in the town of Asheville. Passed.

Bill to amend Chapter 2, title 19, of the Code of Civil Procedure. Passed.

Mr. Osborne, introduced a resolution, requesting our Representatives in Congress, to use their influence to have the branch Mint at Charlotte, North Carolina, re-established.

Mr. Rich offered a substitute urging our Representatives in Congress to vote for the bill now pending in Congress, to abolish said Mint.

Mr. Welker urged the adoption of the substitute. That institution was an expense to the government, and the only object in keeping it up was to shield some men or take them in out of the cold when they could not get office elsewhere. He believed the proposition in Congress was simply to reduce the expenses of the government.

Messrs. Davis, Cook and Osborne opposed the substitute, and it was rejected by a vote of yeas 4, nays 37. Messrs. Bellamy, Martindale, Rich, and Welker voted in the affirmative.

The original resolution was then adopted, ayes 36, nays 4 Messrs. Bellamy, Martindale, Rich and Welker—4.

SPECIAL ORDER.

Bill to lay off the Homestead and personal property exemption. Passed its second reading.

On motion the Senate adjourned until this evening at 7½ o'clock.

PETITIONS &C.

REPORTS OF COMMITTEES.

J. H. Harris, of Wake, colored, from the Committee on Propositions and Grievances, reported favorably upon the resolution in favor of J. J. Moore, Sheriff of Granville county.

Mr. French, from the Committee on Counties and Townships, reported a list of counties from whom no report has been received.

On motion of J. H. Harris, of Wake, colored, the rules were suspended and the resolution in favor of Jas. J. Moore, was taken up and adopted.

Mr. Sinclair, from the Committee on Private Bills, reported upon several bills in favor of certain Sheriffs.

On motion of Mr. Sinclair, the rules were suspended and the different bills passed their several readings.

Mr. French moved to suspend the rules and take up the bill creating the County of Dare.

Mr. Welch said that he thought that in courtesy to the gentleman from Tyrrell (Mr. Jarvis), who was at present absent from his seat, that the matter should be postponed until his return. He (Mr. Welch) therefore hoped the rules would not be suspended.

Mr. Pou said that the gentleman from Tyrrell, (Mr. Jarvis,) had requested him (Mr. Pou) that, if the matter was brought up, to have it postponed until his return, as he (Jarvis, was necessarily compelled to be absent, and if he found the people of his County did not object to the matter, he would pledge himself to make no further opposition to it.

Mr. Farrow said that this dismemberment of his County (Hyde) was very disagreeable to his people, and took its origin in a scheme of certain men to manufacture a new County for political purposes.

After some discussion, the House refused to suspend the rules.

BILLS.

By Mr. Renfrow: A bill to incorporate the Littleton Manufacturing Company.—Referred.

On motion of Mr. *French*, the rules were suspended and his resolution amendatory to the rule of the House, was taken up and adopted.

On motion of Mr. Ferebee, the rules were suspended, and the bill authorizing the Commissioners of Camden county, to levy a special tax, was taken up, and passed its third reading, by a vote of yeas 74, nays 0.

On motion of Mr. French, the rules were suspended, and the bill authorizing the County Commissioners of Pitt, to levy a special tax, was taken up and passed its third reading, by a vote of yeas 76, nays 0.

A message was received from the Senate concurring in the House amendments to the bills concerning the Western N. C. R. R., and the Wilmington, Charlotte and Rutherford R. R.

SPECIAL ORDER.

A bill to amend an act entitled "An act to incorporate the Plaster Bank and Salt Works R. R. Co., ratified 30th of May, 1864." The bill was read at length, and passed its second reading by a vote of yeas 45, nays 34, and was ordered to be printed.

On motion of Mr. French, the rules were suspended and the bill repealing the usury law was taken up and read, when,

Mr. French offered a substitute entitled a bill to establish a rate of interest.

Mr. French took the floor in explanation of his substitute. This substitute allows money to be loaned on any interest that may be agreed on, if the contract was made in writing, but if there be no special contract, then 6 per cent shall be the legal rate. He regarded money as an article of merchandize, and a man had as good a right, to make a profit on that article, as he would on his cotton, potatoes, &c.

Mr. Vest favored the substitute.

Mr. Seymour objected to the bill. He thought it a movement simply intended to benefit capitalists, &c.

Mr. Estes was in favor of the repeal of the usury law, not because it would benefit the capitalist, but in order to favor poor men. If he wished to borrow $10,000, they had no right to say at what rate of interest it must be borrowed at. If he had a crop in some way imperiled and was obliged to obtain money in order to save himself, and that money could only be got at a rate beyond the price fixed by law. This Assembly had no right to pass a law saying he should not borrow the money.

Mr. Downing thought the present law on our statute books was a remnant of barbarism, &c. He thought the repeal of this law would tend to decrease the rate of interest.

Mr. Foster was opposed to the repeal of the law, &c.

Mr Malone said this bill ought to pass. The bill simply allows a man to contract, in writing, for a greater rate of interest than 6 per cent. It does not apply to accounts or to contracts, other than those, *specifically agreed upon, by the parties*. It often happens that a man could pay ten cents and make an excellent speculation in the use of the money. The present usury laws tend to drive capital from the State. But when you allow the miser who holds money to contract for his rate of interest, he will let his money out into circulation.

It is not to be presumed that a man will borrow money—pay 10 per cent., give security, pledge his property, without he considers it to his interest to do so. What objections can exist to the bill?

Mr. Pou said he regarded the usury law still standing upon the statute books of some States as a relic of ignorance and superstition, &c. He had introduced the original bill in regard to this matter, but he prepared the substitute of Mr. French.

The hour for special order was announced, to-wit:

The report of the Committee on Bribery and Corruption. The Clerk proceeded to read the report, when,

Mr. Seymour moved to suspend the reading of the report, and that further action in the matter be dispensed with, until the Senate is heard from. Carried.

On motion of Mr. Estes, the Revenue bill was made the special order for to-morrow at 11 o'clock.

By Mr. Green: A bill to amend the Charter of the Cherawand Salisbury Railroad Co. Referred.

On motion the House adjourned until to-morrow morning at 10 o'clock.

AN IMPORTANT QUESTION SETTLED.—Since the question of woman's suffrage has become threatening, many serious difficulties have been started. The French *Courrier of New York* was especially troubled about the *babies*. Every week, with painful solicitude, it would enquire: If women take to politics, who will tend to the babies? It could find no solution to its own perplexing question. Others came to share, in its anxieties, and everybody began to feel an unwonted interest in the fate of babydom.

Madame Cady Stanton, at the Convention of Women in Washington the other day, came to the public relief by loudly proclaiming: "You horrid men need not be uneasy; marriages will still go on the same as ever, and *the cradle will still be rocked.*"

We regret to learn the death of an old citizen, Mr. Willis Loyd, who suddenly departed this life on Monday morning. Mr. Loyd, on arising a little after daylight, complained of slight indisposition, but as was his regular custom, started to a portion of his farm a short distance from his dwelling. When about half way, he came back, and throwing himself on the bed, said to his wife, 'I shall live but a few minutes,' and expired a few moments thereafter. His physician ascribes his death to disease of the heart.—*Warrenton Courier.*

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are of a truly marvellous character. Inveterate cases of Scrofula, where the system seemed utterly given up to corruption, have yielded to this compound of anti-strumous virtues. Disorders of a scrofulous type, and affections which are merely aggravated by the presence of scrofulous matter, have been radically cured in such numerous instances, in every settlement in the country, that the public do not need to be informed here that it is in most cases a specific and absolute remedy.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unjudged tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver. These facts make the occasional use of the *Sarsaparilla* as a preventive, advisable.

It is a mistake to suppose that so long as no eruptions or humors appear, there must be no scrofulous taint. These forms of derangement may never occur, and yet the vital forces of the body be so reduced by its subtle agency, as materially to impair the health and shorten the duration of life. It is a common error, also, that scrofula is strictly hereditary. It does, indeed, descend from parent to child, but is also engendered in persons born of pure blood. Low living, indigestion, foul air, licentious habits, unhealthiness, and the depressing vices generally, produce it. Wealthy constitutions, where not fortified by the most constant and judicious care, are peculiarly liable to it. Yet the robust, also, whose turbid blood swells the veins with an apparently exuberant vitality, are often contaminated, and on the road to its consequences. Indeed, no class or condition can depend on immunity from it, nor feel insensible to the importance of an effectual remedy.

In *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes and Lips*, and other cutaneous or visible forms of the disease caused primarily by the scrofulous infection, the *Sarsaparilla* is so efficient as to be indispensable. And in the more concealed forms, as in *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and other affections of the muscular and nervous systems, the *Sarsaparilla*, through its purifying power, removes the cause of the disorder and produces astonishing cures.

The sarsaparilla root of the tropics does not by itself achieve these results. It is aided by the extracts combined with it, of still greater power. So potent is this union of healing virtues, *Syphilis* or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases* in general, are commonly soon relieved and ultimately cured by the invigorating and purifying effect of our *Sarsaparilla*. *Rheumatism* and *Gout*, often dependent on the accumulations of extraneous matters in the blood, have their remedy also in this medicine. For *Liver Complaints*, torpidity, inflammation, abscess, etc., caused by rankling poisons in the blood, we unhesitatingly recommend the *Sarsaparilla*.

This medicine restores health and vigor where no specific disease can be distinguished. Its restorative powers soon fetch by those who are *Languid, Listless, Despondent, Sleepless*, and filled with *Nervous Apprehensions or Fears*, or who are troubled with any other of those affections symptomatic of weakness. Many, after taking it for *General Debility*, have written us of the youthful vigor imparted to their nervous system, which seemed buoyant with that prolific life they thought had departed on the advance of age. Others, whose fountains of life were always sterile, acknowledge their obligations to it for an obvious change.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no case injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

MISCELLANEOUS.

To the People of the Southern States.

NEW YORK, Nov. 3, 1868.

When the pure medicinal restorative, now so widely known as Wolfe's Schiedam Schnapps, was introduced into the world under the endorsement of four thousand leading members of the medical profession some 20 years ago, its proprietor was well aware that it could not wholly escape the pens ty attached to all new and useful preparations. He, therefore, endeavored to invest it with strongest possible safeguard against counterfeiters, and to render all attempts to pirate it difficult and dangerous. It was submitted to distinguished chemists for analysis, and pronounced by them the purest spirit ever manufactured. Its purity and properties having been thus ascertained, samples of the article were forwarded to ten thousand physicians, including all the leading practitioners in the United States, for purposes of experiment. A circular, requesting a trial of the preparation and a report of the result, accompanied each specimen. Four thousand of the most eminent medical men in the Union promptly responded. Their opinions of the article were unanimously favorable. Such a separation, they said, had long been wanted by the profession, as no reliance could be placed in the ordinary liquors of commerce, all of which were more or less adulterated, and therefore unfit for medical purposes. The peculiar excellence and strength of the oil of juniper, which formed one of the principal ingredients of the Schiedam Schnapps, first with an unbiassed character of the aforesaid element, give it, to the examination of the faculty, a marked superiority over every other diuretic combined to a diuretic, tonic and restorative.

These satisfactory credentials from professional men of the highest rank were published in a condensed form, and enclosed with each bottle of the beverage, as one of the guarantees of its genuineness. Other precautions against fraud were also adopted; a patent was obtained for the article, the label was copyrighted, a *fac simile* of the proprietor's autograph signature was stamped on each label and cover, the name and trade of the preparation were embossed on the bottles, and the corks were sealed with his private seal. No article had ever been sold in this country under the name of counterfeits prior to the introduction of Wolfe's Schiedam Schnapps, in 1851; and the label was deposited, as an extra precaution, in the United States District Court for the Southern District of New York during that year.

It might be supposed by persons unacquainted with the daring character of the pirates who prey upon the reputation of honorable merchants by vending deleterious trash under their name, that the protections so carefully thrown around these beverages would have prevented the introduction into sale of counterfeits. They seem, however, only to have stimulated the rapacity of imposters. The trade mark of the proprietor has been stolen; the advertisement which his Schiedam Aromatic Schnapps sent received from the medical profession have been claimed by nondescript humbugs; his labels and bottles have been imitated, his advertisements paraphrased, his circulars copied, and worse than all, disreputable retailers, after disposing of the genuine contents of his bottles, have filled them up with common gin, the most deleterious of all liquors, and thus made his name and brand a cover for poison.

The public, the medical profession and the sick for whom the Schiedam Aromatic Schnapps is prescribed as a remedy, are equally interested in this proprietor in the detection and suppression of these infamous practices. The genuine article, manufactured at the establishment of the undersigned, in Schiedam, Holland, is distilled from a barley of the finest quality, and flavored with an essential extract of the berry of the Italian juniper, of unequaled purity. By a process unknown in the preparation of any other liquor, it is freed from every acrimonious and corrosive element.

Complaints have been received from the leading physicians and merchants in the Southern States of the sale of cheap imitations of the Schiedam Aromatic Schnapps in those markets; and travellers, who are in the habit of using it as an antidote to the baneful influence of unwholesome river water, testify that cheap gin, put up in Schiedam bottles, is frequently palmed off upon the unwary. The agents of the undersigned have been requested to institute inquiries on the subject, and to forward to him the names of such parties as they may ascertain to be engaged in the atrocious system of deception. In connexion, the undersigned would say that he has produced, from under the hands of the most distinguished men of science in America, proofs unanswerable of the purity and medicinal excellence of the Schiedam Aromatic Schnapps; that he has expended many thousand dollars in surrounding it with guarantees and safeguards, which he designed should protect the public and himself against fraudulent imitations; that he has shown it to be the only liquor in the world that can be uniformly depended upon as unadulterated; that he has challenged investigation, analysis, comparison, and experiment in all its forms; and from every official the preparation which bears his name, as and its trademarks, has come off triumphant. He therefore feels it a duty he owes to his fellow-citizens generally

The Warrenton *Courier* is greatly exercised on hearing the rumor that Warrenton Depot, on the R. & Gaston Road is to be discontinued, and the business of the old Station taken to the new city at Ridgeway.

The *Courier* says, "Such palpable injustice to our village as the closing of Warrenton Depot, thereby seriously interfering with the interests of a large community, for the benefit of two or three individuals, would be an unprecedented outrage As for the other Stations, Manson and Ridgeway, it is a matter of small importance whether they be discontinued or not, as the distance from them to where the new depot is to be located, is so short as to be of no inconvenience to any one of the scattering population surrounding them—more on this subject anon.

IF THE U. S. government should levy a tax of three cents per pound on cotton, as has been proposed in Congress, and three fourths of the crop, say 1,500,000 bales, should be produced by negro labor, it would be an annual tax of $30,000,000 on the poor negro.

Was not the colored speaker right, when he said in the National Convention, at Washington, "the real enemies of the colored man live at the North!"

Cannot the colored people begin to see that their interests are identical with those of their true friends, the whites of the South.

The Editor of the Petersburg *Index*, among other things, says, "We are opposed to poverty, scolding wives, squalling children, bores who button-hole and banks who shave us. We are opposed to measles musquitoes, cholera and carpet-baggers. We are opposed to our misfortunes in general and the faults of other people in particular. We are opposed to the Under-Wood Constitution,

THE UNWASHED OF ORANGE.

Under the new march of civilization, one of Holden's Squires marched from Durham's to the old Whitehead place, near Hillsboro', where he tarried for the night. When water was handed him the next morning to perform his ablutions, he looked at his black hands, presented them to the lady of the house for inspection, and declined, saying it was rather cold. Holden's is a dirty administration, and his officials should not repudiate water, for they need washing.

THE *National Intelligencer* asks the question, "is Andrew Johnson a demagogue," and answers it, by saying "in one sense we accept the definition for him. The legitimate meaning of the word 'demagogue' we take to be—'from the people, or a leader of the people.'" The *Intelligencer* then proceeds, in a lengthy article, to prove that, in the common version of the term, Andrew Johnson is not a demagogue. The trouble and labor, we must confess, of the argument in question, adds nothing to, or takes from, the reputation of President Johnson. History, we take it, will do him justice, and his official acts, and *supposed* motives, will be canvassed freely and fully by his enemies, as well as by his friends. That the President has done the best he could, under the circumstances, perhaps there is a few, only, who will doubt. Perhaps, if he lacked anything to make his administration a brilliant success, that deficiency might have been supplied by the exercise of a little of the firmness that characterized the life of Andrew Jackson—or, in plain english, a will to *act*, in defiance of his surroundings. We are not disposed, however, to complain of his *intentions*.

BY THE RECENT action of the Legislature, in their wild and visionary schemes of internal improvements, the indebtedness of the State now amounts to *forty-seven millions of dollars!* and still the work of plunder stops not at these figures. Other schemes are before the Legislature, and, we doubt not, will go through. Will our people believe and realize these facts! Can there be found a man within the bounds of North Carolina, brazen enough to go before the masses and justify such wantonness and profligacy? The future of the State is already foreshadowed; the sable mantle thrown over the prospects of our people, by the hand of fraud, plunder and corruption, only conceals for a season the mighty crash which will hatch out, and expose to the frightened view of an unsuspecting consistency, a scene that will beggar all description. Mark the prediction, and watch results.

WHAT WASHINGTON SAID.—"When two wealthy companies were formed through his exertions, to extend the navigation of James River and the Potomac, in acknowledgement of his valuable services, pressed him to accept one hundred and fifty shares of the Company! Stock, amounting to near $40,000. He instantly refused it saying "what will the world think if they should hear that I have taken $40,000 for this affair? Will they not be apt to suspect, on my next proposition that money is my motive? Thus for the sake of money, which indeed I never coveted from my country, I may lose the power to do her some service, which may be worth more than all money!"

WEEMS LIFE OF WASHINGTON.

WHAT BECOMES OF "MANHOOD SUFFRAGE."

A New York dispatch to a Western paper says:

A movement is on foot here among Republicans for the organization of a new party restricting the elective franchise by requiring a certain amount of intelligence, and totally reconstructing the naturalization laws. This city is so completely in the hands of foreigners, that this movement, if pursued, will be reactionary. It is thought it will spread and become formidable on account of the men connected with it.

So the shoe of universal suffrage is beginning to pinch. None of our New York friends felt the pain while consigning the South to a universal suffrage of ignorant and semi barbarous blacks. They never had a word of remonstrance against that awful outrage against common sense and the public safety. Negro suffrage was good enough for us, but Irish and Dutch suffrage will not do for them.

Gentlemen of the "manhood suffrage" party—you woo have told us so long and loudly that suffrage is not a political privilege, but a natural right of man—you have gone too far to help yourselves. Your case looks to us remediless. You are fairly committed, not only to Irish, Dutch, and negro suffrage, but the Indians and John Chinaman are yet to come in for this God-ordained right or manhood. We don't see but what you will have to "float it out on that line" and take the consequences.—*Lynchburg News.*

No one who knows Mr. Robbins will pay any attention to the infamous attempts of his enemies to tarnish his good name.

At the time we write we have not seen the report of the Committee, but hear that Senator Sweet's charges were only sustained by circumstantial evidence; which may be readily accounted for by the fact that Littlefield and others whose testimony was important absented themselves from Raleigh continously and persistently during the sittings of the Committee.

The failure of the Committee to *convict* any parties of bribery and corruption will not affect that public opinion which *believes* that they *would* have been convicted if certain witnesses had not designedly kept themselves beyond reach of the Committee. —*Wilmington Star.*

COTTON MAD.—The Georgia correspondent of the New York *Times* thus writes:

"An immense area will be planted in cotton next year. The incentive of 25 cents per pound is irresistable. Every one is going to plant who has an acre of ground, and every one seems confident that 'cotton will never fall again below 20 cents.' I am much afraid that the suffering of 1867 will be experienced again. But it is idle to talk or give advice. 'Sell cotton at $100 a bale and buy corn at 75 cents or $1,' is the invariable reply to the sagest counsel."

In the same breath, the correspondent notes the difficulty of procuring hands. If this difficulty should continue, the area of cotton planting must be materially reduced.

Gen. Porter, of Grant's staff, had his pocket picked of $1,000 at the late army reunion in Chicago.

For the Sentinel

WHAT CROPS WILL BE MOST VALUABLE FOR THE YEAR EIGHTEEN HUNDRED AND SIXTY NINE.

For the first time since the war the farmer is enabled—owing to the high price of cotton—to employ labor to cultivate his lands. Experience has instructed him that the cultivation of corn, except to such an extent as feed for his stock may require, cannot be profitable unless his object be to raise stock for sale, and, even in such case, it is very doubtful whether it will pay so long as hand hire remains from ten to twelve dollars per month and their board. The cotton crop for the year 1867 did not pay; for most of the farmers sold when cotton was selling from twelve to fourteen cents a pound, and it is generally admitted that twelve cents a pound will not more than pay for the cultivation of cotton, unless the land will produce a bale to the acre, without the application of costly fertilizers, and but few own such land. Such being the case, and the certainty that about twice the number of acres of land will be cultivated this year in cotton as there were last year, and if the yield should be good that price of cotton cannot be higher than sixteen cents, and the probability is it may be less that, the prudent farmer, under such circumstances, will cultivate about half the number of acres as he did before the war, and he will manure that much with good compost, instead of investing large sums of money in Guano or some other temporary fertilizer. He will make at least a bale of cotton to the acre and make more by selling it at twelve cents a pound, than if he had cultivated double the quantity of land and half manured and made a usual crop of about half bale to the acre and sold it at twenty fourcents; because it required twice the amount of labor and feed for his horses. If we will cultivate cotton, we should make our own fertilizers and cultivate about half the number of acres as formerly, or rather just as much land as we can well manure. Do this, and cotton crop will pay well, and in a few years your farm will increase to twice its former value. But there are other paying crops worthy of the farmer's attention. The fact that farmers of North Carolina can ship garden peas North three weeks before the truckers near Norfolk, and that peas are worth from twelve to fifteen dollars per barrel, merits due consideration. It takes about one bushel and half of peas to plant an acre, and they are worth now twelve dollars a bushel, and an acre will produce from ten to twenty barrels, and we could ship two thirds of the crop before a fall in price. The land should not be too rich, the rows about two feet distant and peas planted very thick. Why not give this crop a trial? It don't require as much labor as cotton, and you receive your money for it in April and May, time enough to use for the cultivation of your cotton crop. The onion crop will pay well, also. The land should be highly manured, rows about one foot distant and onions six inches apart. It will take about eight bushels of sets, worth about twelve dollars a bushel, and an acre ought to make five hundred bushels, which sold last year as high as eight dollars per barrel of three bushels. You may be certain they will nett you one dollar per bushel, which will pay more than cotton. It is true, the sets are costly, yet the return will pay for the outlay and it requires not half the labor to cultivate onions that it does cotton. Try it farmers in a small way, as the writer did last year, and you will be well pleased with the result. There are other crops said to pay well, but the writer never having cultivated any of them could not advise others.

Politics don't interest as formerly. We can only indulge a fond hope that many of our present law-makers will ere long be assigned to that tomb of oblivion which their meanness so justly merits, and that their places will be filled by those who will do justice to that great Anglo Saxon race, whose moments are those of genius, civilization and Christian morality. Then, and not till then, will the honest farmer withdraw any of his attention from his pleasant vocation or desert his rural retreat.

From the Nashville Press and Times, Jan. 26.

SUBTERRANEAN NASHVILLE.

Discovery of Relics of a City and People that Flourished a Hundred Years Ago.

Some months ago we had occasion to write at considerable length various accounts of strange discoveries made in the immediate vicinity of Nashville, and up the banks of the Cumberland as far as Stone river, showing conclusively enough that this vicinity must have been the site of a once large and magnificent city.

It is now generally conceded by the few learned men among us that formerly, beyond the period of even European records, a mighty race dwelt on this continent, and that vast cities and an immense population flourished on the hills and plains now covered with what we consider the primeval woods. Nashville, in particular, is rich in the remains of this mighty race.

Two days ago an adventurous student entered the cave which is known to run under our city, in West Nashville, near the residence of Mr. Hines, on Knowles street; and having traveled in a southerly direction for over a mile, until he found himself somewhere under the hill on which Fort Negley stood, he commenced a rigid exploration.—He found earthern vases in profusion, some of them capacious enough to hold a barrel of water, and of undoubted Eastern style of construction. He also found a stone coffin or sarcophagus, nine feet long on the outside or seven feet long on the inside.—It was laid upon a natural ledge of rock, and bore certain characters on the side of it, which he was unable to decipher. Within was no thing but a small sprinkling of dust and about half an inch of pasty mud. He also found regular steel knives, with very long handles of some sort of composite material, which he assures us is pottery. On these the graven characters are yet quite legible. He brought forth from this grave of centuries several specimens of his discoveries, which are no less curious than wonderful. He is making preparations for a series of explorations, which he intends to extend over several weeks. They will be undertaken with a view of writing an exhaustive and correct account of all the archæological remains which are to be found around this city.

THE LEGAL TENDER CASES.—The judges of the Supreme Court were in consultation on Friday and Saturday on the legal tender case. The discussion of the judges was quite extended, but no decision has been reached. The consultation has developed the fact, however, that there will be two opinions prepared, but at this time it is unknown upon which side the majority opinion will be made. Future conferences will decide this and who shall be selected to prepare the opinions.—*Wash. Cor. N. Y. Tribune.*

On the 26th inst., Wm. Read a married man, living in the vicinity of Grove Hill, in this county, eloped with Miss Sallie Robberston, a maiden lady, resident of the same neighborhood.—*Warrenton Courier.*

The rent for sittings in Henry Ward Beecher's Church amounts to $97,000 this year.

ATLANTA, Jan. 28, P. M.

A Joint Committee of both Houses were appointed to inquire whether any money had been drawn from the Treasury, except by appropriation made by law, and whether any money had been drawn on Executive account, for which there is no authority of law. The Committee to enter at once on their duties, with power to send for persons and papers, and report the result to the General Assembly.

A Committee of one from the Senate, and two from the House, was appointed to visit localities where it is reported that lawless and reckless men were drilling at night,—and threatening the lives of both whites and blacks, and searching cars for obnoxious individuals, who are disturbing the peace and tranquility of the community, —that the civil authority to state what is sufficient to preserve order and to protect individuals and property, and if the Committee find the reports of lawlessness to be true to report to the General Assembly why the powers invested in civil officers, were not exercised to protect person and property.

NEW GOODS! NEW GOODS!

AT HOME AGAIN!!

WITH A HOUSE RAMMED AND PACKED FULL OF

NEW FALL AND WINTER GOODS,

FOR

1868.

COME TO

A. CREECH'S!

For Ladies' Goods! For Gentlemen's Goods! For Misses' Goods! For Boys' Goods! Ditto for Children!

MY STOCK IS LARGE AND VERY COMplete. Allow me to say that you see some very strange advertisements. Some say they bought goods before the rise—some after the decline—some just in time—some in luck again—some buy goods cheaper than anybody else—some selling goods at unprecedentedly low prices—some contracting the trade &c., &c., and all such stuff. What a lucky set of individuals!

Now just let ME tell you, that there is more humbug than poetry in all this. Don't every man, woman and child know that it is humbug—large enough to be seen even with one eye shut? So let them talk, puff and blow, but STOP, LOOK OUT! HANDS OFF! and show your good judgment by

COMING TO CREECH'S

to buy your goods. I intend to run through this campaign with my motto, to give each and every individual value received for their support!

A fine opportunity for the ladies to exercise their inalienable rights, as well as the gentlemen. Don't stop until you COME TO CREECH'S. You will find me at R. Smith's corner, attending to my business, always ready to give you the worth of your money.
